INFORMATION SECURITY GROUP

WEEKLY REPORT

1 - 14 June 1988

25X1 1. From 1-3 June, the Information Security Group held its annual Conference at [ ] The agenda consisted of an Agency orientation day, speakers and panel discussion on information security issues facing the Agency today, and a career development day. Excellent presentations and subsequent discussions by staff and invited guests led to a very successful conference.

25X1 2. ISG representatives held their first planning meeting with [ ] a contractor hired to assist ISG with strategic planning support for Agency Information Security activities. Regular working group meetings will be held with ISG to identify INFOSEC programs and to develop an Agency Information Security Strategic Plan.

3. Groundwork for implementing a new program management system within ISG has been completed. Guidance has been provided to the branches for draft preparation of project plans which will be reviewed around the end of June.

25X1 4. On 13 June [ ] reported to work for ISG in Field Branch (FB). [ ] is on Rotational from IMS/FSG. His expertise in DO operations, and in particular the CRAFT system will be greatly appreciated.

25X1 5. On 09 June members of ISG Field Branch and Systems Assessment Branch met with Representatives from [ ] to discuss their plans for obtaining VM interconnectivity in the headquarters administration building at [ ]
